

On-site FBI Fingerprinting

The FBI fingerprinting clearance provides individuals with a criminal history record. In order for a person to obtain this clearance they have to be digitally fingerprinted at a facility that offers this service.

However, the process of getting your fingerprints at a facility can be frustrating and time consuming.

ProVerify offers an **onsite** FBI fingerprinting service.

WHAT IS ON-SITE FBI FINGERPRINTING?

On-site FBI fingerprinting is the newest service offered by ProVerify. We have two mobile fingerprinting units that our skilled technicians can bring to your location for a full or half day. We can make the previously frustrating, difficult process an easy one. The pre-registration process means that your people will quickly and painlessly get their fingerprints without waiting in long lines or driving long distances to make their appointments.

HOW DOES AN "EVENT" WORK?

We send our mobile fingerprinting unit with someone from our team to your location on the scheduled day. They'll spend either a full or half day at your location fingerprinting all of the pre-registered people. The clearance can be stored in our online tracking system to make record keeping quick and simple.

HOW DOES SCHEDULING YOUR OWN EVENT WORK?

Fill out our online form to get in contact with our scheduling team. We will let you know when we will can be in your area, you pick a day, pay for the spot, and you're scheduled. You'll get a link to share with your staff and/or volunteers for them to pre-register.
